2 · PERMISSION

every flight

1 Ask Mr. Burr

His Google Form, at least 24 hours before you want to fly. One flight, one request. A club meeting is one request for the whole group, filed by a mentor; a personal flight is your own.

2 Spotter

Every flight has a spotter with eyes on the aircraft. Your own drone: anyone you name on the form. A club drone: a mentor is there for the session.

3 Wait for the yes

He answers by email. Fly once Mr. Burr approves, and only what you asked for. No answer means no.
