TIER 1 TINY WHOOP

BROPHY
UAV PROGRAM
FPV CLUB

YOU FLY
Meteor 75 Pro · sub-250 g · safe indoors

TO GET HERE
Pass the Tiny Whoop checkpoint (foot of this sheet) · its seven prerequisites first

ON THIS SHEET
Your checkpoint · then 5 prerequisites for Tier 2
2 QUIZ · 2 BENCH · 1 WITNESSED

TO TIER 2 · PT. 5 — WITNESSED

5 Freestyle Flight

In the simulator: smooth flying, gaps, powerloop, trippy spin, Matty flip, and a wildcard.

THE STANDARD

Smooth, flowing lines; three tiny gaps; a powerloop, a trippy spin and a Matty flip; plus a wildcard - a path or move the mentor picks at random on the day.

In person with a mentor, everything in one flight, one attempt per day.

Practise first on the Pilot Path: Your first flip and roll · The Split-S · The Power Loop · The Matty Flip

WHY Advanced control before flying expensive airframes.

NEXT
Tier 2 checkpoint
PAVO 20 PRO FLIGHT · SHEET 3 →

TO TIER 2 · PT. 4 — BENCH

4 Field Diagnostics

A mentor breaks three things - radio, Betaflight, mechanical or electrical - and you fix each.

AT THE BENCH · 5 STEPS

A mentor breaks three things without telling you what › Radio › Betaflight › Mechanical or electrical › Explain each cause to the mentor

Then a photo, submitted on the website · a mentor passes or fails it

WHY Keeps a shoot going instead of ending it.

TO TIER 2 · PT. 3 — QUIZ

3 Radio Protocol

ELRS, analog and digital video, range, antennas and interference.

6 LESSONS, THEN THE QUIZ

1. Analog against digital
2. Bands, channels and racing DRILL
3. Antennas and diversity
4. Control links: ELRS, Crossfire, binding, failsafe
5. Interference at an event
6. Digital video: goggles, recording and D-log

10 questions · 80 % passes · no sign-off needed · retake any time

WHY Fewer dropouts at events, and footage the editor can use.

TO TIER 2 · PT. 2 — QUIZ

2 Electrical Components

Choose motors, ESCs, batteries and props for a given drone.

4 LESSONS, THEN THE QUIZ

1. The six parts
2. Motors, props and thrust DRILL
3. Matching motor, ESC, prop and battery
4. Why a 3-inch and a 5-inch differ

10 questions · 80 % passes · no sign-off needed · retake any time

WHY Why small and big quads need different parts.

TO TIER 2 · PT. 1 — BENCH

1 Soldering

Solder an ESC and motors, then spin the motors in Betaflight.

AT THE BENCH · 5 STEPS

Iron at the right temperature › Tin the pad › ESC pads › Motor wires › Spin each motor in Betaflight

Then a photo, submitted on the website · a mentor passes or fails it

WHY Core electronics skill that transfers to robotics.

TIER 1 CHECKPOINT · WITNESSED

Tiny Whoop

Checkpoint into Tier 1: your first real flight, the Meteor 75 Pro in goggles.

THE STANDARD

Take-off, a figure-eight through two gates, an orbit, a landing on the pad - no wall contact. In person with a mentor, everything in one flight, one attempt per day.

PREREQUISITES · 7 BADGES

- [ ] Sim Flight
- [ ] Safe Flight
- [ ] Building
- [ ] Line of Sight
- [ ] Spotter
- [ ] Battery Care
- [ ] Betaflight

All ticked? That is the big check: attempt the checkpoint with a mentor watching.

FLIGHT · BUILD & TECH · KNOWLEDGE & SAFETY · CREW & LEADERSHIP

Quiz badges: pass at 80 %, no sign-off · **Bench** and **witnessed** badges: a mentor who holds the badge signs it off · demonstration, not attendance
