TIER 3 EVENT PILOT

BROPHY
UAV PROGRAM
FPV CLUB

YOU FLY
Any Tier 2 airframe at a school event · always with a spotter

TO GET HERE
Pass the Event Pilot checkpoint (top of this sheet) · its five prerequisites first

ON THIS SHEET
The Event Pilot checkpoint · plus 4 bonus badges, any order
1 BENCH · 3 WITNESSED

TIER 3 CHECKPOINT · WITNESSED

Event Pilot

Checkpoint into Tier 3: fly at a real school event or a race, with a spotter, under a mentor. You earn it by flying there – once every prerequisite is ticked.

THE STANDARD
At a real school event or race: the airspace checked, the zone set up and briefed, a spotter beside you, a mentor on site. The mentor signs it off afterwards.

PREREQUISITES · 5 BADGES

- ☐ FAA TRUST
- ☐ Cinematography
- ☐ Racing
- ☐ Event Ops
- ☐ Indoor Proximity

All ticked? That is the big check: attempt the checkpoint with a mentor watching.

BONUS BADGES · ANY ORDER, ANY TIME · NOT COUNTED

BONUS · TIER 2 PILOTS · WITNESSED

Mentor

Be a Tier 2 pilot with deep knowledge of the FAA rules, then coach a new member through their first two badges. A mentor who holds a badge may sign it off for others, with officer approval.

THE STANDARD
Tier 2 pilots only: every Tier 0 and Tier 1 badge earned. Deep knowledge of the FAA rules for recreational flying (most mentors hold a licence) - an officer judges it, no quiz. Then two badges earned by someone you coached, confirmed by them and an officer. With an officer's approval, a mentor signs off the badges they hold and is given the instructor password.

WHY The program trains its own replacements, and defines who may sign badges off. Mentors watch for anything that would break the law, so club rules can stay simple.

PART 107

Want the real commercial licence? The club runs a study group. You pay the exam; we supply the prep.

BONUS · WITNESSED

Fleet Steward

Run equipment check-in/out and a maintenance log for one semester.

THE STANDARD
A semester of the check-in/out sheet and maintenance log, reviewed by a mentor.

WHY Accountability for school-funded gear.

BONUS · BENCH

Tuning

Fix an oscillation with PID or filter changes, with before/after footage.

AT THE BENCH · 4 STEPS
Before footage showing the oscillation › Blackbox or reasoning › One change at a time › After footage
Then a photo, submitted on the website · a mentor passes or fails it

WHY The skill behind smooth cinematic footage.

BONUS · WITNESSED

Editing

Cut and colour-grade a 30–60 second clip from D-log footage.

THE STANDARD
A finished 30–60 s clip from D-log, graded, delivered to the editor.

WHY Best of Brophy doesn't depend on one editor.
